IMCI-OIL.COM

WHO WE ARE - For over 30 years IMCI has been serving the Midstream Energy Market, specifically pipelines, refineries, truck and rail terminals, with Custody Transfer Measurement, additive systems, instrumentation, control valves, level controls, automation, LACT fabrication, UL panels and related equipment, for a one source integrated experience. From initial design, through CAD drawings, to equipment selection and procurement, assembly and startup, our team offers a customized approach to our customer's unique applications.

Our strength lies in our Field Service Techs who reside in each of our four locations and bring their years of experience to each project. We have not finished the job until the customer is completely satisfied with the end result.

SUPPLIERS OF THE FOLLOWING EQUIPMENT:

double block & bleed valves

grounding, overfill controllers, plug/cables, VIP systems

Coriolis flow meters, transmitters

pressure, temperature transmitters

LACTs, meter skids, injection systems, custom fabrication

small volume provers

liquid/gas flow meters, BS&W monitors & probes, level controls

PD, turbine, Coriolis flow meters, AccuLoad presets, control valves, strainers

Flow meters, control valves and strainers

Inline carbon steel fabricated strainers & cast steel strainers

load arms, swivel joints, dry break and API couplers

mechanical, radar tank level gauges, transmitters, Fuels Manager automation systems

sample systems

additive injection systems

turbine meters, indicators

control valves

terminal automation systems, SCADA systems, card readers

mechanical registers and presets

oval gear meters

temperature averagers

RTD's, T/C's, thermowells

full port, fire safe, DBB ball valves

load arms, swivel joints, API couplers

metal braid, composite drop hoses, product hose

hose covers

ss tube fittings and valves

relief valves

aluminum couplers

pressure, temperature, level and flow instruments

fall protection and safety equipment

fall protection and safety equipment

fall protection and safety equipment

terminal automation, additive injection systems, tank gauging

Welding & Fabrication

AWS D1.1, GTAW SS & CS
ASME Section IX
B31.3 Normal

UL Certifications/Control Panels

UL 508A NITW Industrial
UL 508A NNNY Haz. Locations
UL 508A NRBX Intrinsically Safe
GE Intelligent Platform ISP

OFFICE/SHOP LOCATIONS

MONTANA

2155 Harnish Blvd.
P.O. Box 80765
Billings, MT 59108
